### General Information

#### Communication

The best way to reach me is via email. I check my email daily and reply promptly.

#### Description

This course will help your child be successful in the classroom. The instructor uses individual ACCESS scores to develop the best class content to facilitate growth in the four language domains: speaking, reading, writing, and listening. Course content is predominantly online via Google Classroom. Please make sure that your child has their Chromebook charged and ready. The students will be writing daily in a notebook provided to them. They will practice and expand their vocabulary using the Word Cell program in addition to Super Sentences, and quizzes/games through Quizlet. We will be reading articles and short stories as well. The speaking component will be addressed through presentations and class discussions.

#### Goals

My goal is to help every student improve their skills, grow academically, and achieve proficiency scores on ACCESS test. They will take the test in January and as soon as I receive the scores I will share them with the students. We will be setting academic goals monthly to help us stay focused.

#### Expectations

I believe that when we all, teacher - parent - student, work together we will reach our goal and succeed

#### Materials

- ❖ Chromebook
- ❖ Pencils
- ❖ Agenda

#### Grading

Grades for this class will be weighted and will be distributed at a later date.
